			Granit (Hann)
			Andorra II (Hann)
			Weltmann (Hann)
			Narzisse (Hann)
			Wilderer (Hann)
			Fortuna (Bavarian WB)

Pedigree:

Inspiration GF was approved in March 2003 with the ZSAA and was described as being the "Star of the Approval" that day. He completed his 70 days test in 2004 successfully.

Inspiration's sire *Inspirant* (Oldenburg Dark Chestnut born 1975 16.2H) was sired by *Inschallah* x who is considered one of the most influential sires in Germany, and probably after *Ramzes* x the second most important Anglo -Arab in modern warmblood breeding.

Inschallah x was an exceptionally versatile sire, producing Top -horses for Dressage, Showjumping & Eventing, and his offspring have without exception inherited his brilliant character & rideability.

Inschallah was a definitive example of an Oldenburg Foundation Sire. *Inschallah* was a french bred 16.2H Grey who was exported from France to Oldenburg where he became the most important sire next to *Furioso II* at the famous Volwerk stallion station in Cappein.

He was by *Isreal AA*, whose sire *Fantaisiste II* is on the pedigrees of a number of french international showjumpers. His dam, *Resena AA* is by *Nithard AA*, a leading sire of showjumpers in France. Also on his mother's side we find the stallion Makelaar, who produced the stallion Urban, one of the most sought after stallions in Australia today.

Inschallah was approved for breeding by the Oldenburg Verband as well as Hanoverian, Trakehner, Westfalen, Hessen and Rhineland Verbands. Inschallah is also considered a

prominent influential bloodline in current Dutch horse breeding.

He was a sire with enormous gaits... producing the current desired style of trot in Germany of a more rounded movement, with higher knee action and reaching forward stride... as opposed to the flat leg movement desired years ago. With his powerful frame and extravagant movement, *Inshallah* has had a big influence on modern warmblood breeding. His offspring have dominated in every aspect... auction foals, show mares, elite foals, conformation show class winners, top dressage horses and show jumpers.

***Inshallah* has sired Olympic medal winning dressage horses and has over 34 fully approved sons.**

Inshallah also proved especially valuable as a broodmare sire, and sired 83 State Premium mares.

In 1995, Germany's former Oldenburg breeding manager and former Oldenburg N.A. breeding manager, Dr. Roland Ramsauer, said ***Inshallah*** blood is currently very popular with European breeders. ***Inshallah's*** impeccable temperament has been successfully and consistently showing up in generation after generation of his offspring.

Breeders have discovered that although there are excellent moving stallions available, there have been some problems in regards to undesirable temperaments.

Inschallah's blood produces enormous gaits and solid conformation, but it also produces very suitable sports horse temperaments.

Inschallah won the stallion performance test in Adelheidsdorf in 1972 and his career as a stallion started to skyrocket, especially when mare owners realized he was throwing jumpers and dressage horses.

He has been described by people who know him as a kind and intelligent stallion eager to please and careful with handlers. His offspring are collectively considered quite intelligent and very oriented to be around people.

Inspirant's dam, ***Havanna***, was born in Westfalen & founded her own mare-line within the Oldenburg Studbook. Having successfully competed to M Dressage herself before commencing her breeding career, she produced highly graded mares.

When ***Inspirant*** covered in Oldenburg he sired amongst others the very successful jumping mare ***Ziska***, who herself produced one of the highest priced horses of the PSI Auction in 1986.

Marduc the great Sire of Inspiration's dam was a 1977 Gray 1.71m Trakehner.

One of the best Trakehner stallions for dressage by **Halali (Trak.)** out of **Madeira II (Trak.)** Marduc is widely considered to be one of the most important Trakehner stallions of today, having previously been ranked the highest Trakehner dressage sire in the world with a very impressive Dressage Index of 155. He was schooled to the Grand Prix Level and was awarded Elite status in 1995 for his breeding record.

Irrwisch's dam Phantasia (OLD)

Phantasia was sired by **Nariston** owned by the Schridde Family in Germany. Whilst he himself only competed to M level prior to retiring to stud his thoroughbred sire **Narew** produced numerous Z level show jumping progeny.

Naristons dam **Gerinde** is by the international jumper **Granit** (by **Goldfalk**) and out of the famous international mare **Andorra** (by **Agram**) – She unbeatable during her career ridden by Manfred Kloes.

Nariston's dam's sire **Granit (Hann)** represents the old Hanoverian **Goldsehaum xx** line, carried on through the foundation sire **Goldfisch II. Granit** went on to produce 33 approved sons, 34 St. Pr Mares and 3 of his showjumping progeny to the Olympic Games – **Grande Giso** (Holland), **Grande** (USA) and **Gute Sitte** (Belgium)

Galapagos with Gabriella Grillo represented Germany at the 1982 World Championships, and was one of the first stars of the “new” class, Freestyle Dressage to Music. **Grandeur** (Gralsritter) won over a million Deutschmarks in a spectacular showjumping career, and since then has proven himself as a superior sire.

Grande's son *Graphit* sired winners of over almost two million DM and sire of the most important jumping stallions of them all, *Grannus*.

Grande's son, *Garibaldi II* sired the American dressage star *Gifted* who carried Carol Lavell to a team bronze at the 1992 Games and placed 4th individually. *Garibaldi II* died at the age of only 14 which was a great loss.

Grunnox (by Gruewald) was another top dressage horse, this time with Mor Theodoreescu, and together they were members of the 1992 Gold Medal team Barcelona.

Gerlinde produced the famous *Lauriston* ridden by Jos Lansink.

Lauriston himself went on to sire many world class horses such as “*Catapult*” ridden by Billy Twomey and Micheal Whitaker and the Grand Prix horse “*Promise Me*”. He was the winner of the German 6 year old jumping Championships in 1992 with the record score of 9.7 for style and scope. Breeder Paul Schockemohle, he was purchased by the Bolvorm Stable, Holland, for 1 million DM in 1992. Under the name of Bolvorm's *Lauriston* he continued his National and International career ridden by Jos Lansink and Ben Schroder, winning in Modena and Waterloo.

Lauriston sired 10 International horses from his first Dutch crop of foals.

International show jumpers by Lauriston so far:

Promise Me – Ian Millar

Lauriston – Peter Wild / Sheila Burke

Lausanna - Luis Jesus Escobar Jimenez

Laceful – Z Oleg Krasnyuk

Liberty Life II – Carsten Otto Nagel

Laurienta - Niels Nanning

Lassandro

Nairobi – Ben Schroder

Catapult – Billy Twomey / Michael Whitaker

Annabel – Rob Ehrens

Largus - Geoff Billington

Agrovorm's Paddington – Jos Lansink

Volvo's Santiago – Henri Stegeman

Nicholson - Axel Verlooy

Mumbo – Cindy Perdaen

Phantasia's dam **Panachee** was sired by the Hanoverian dressage sire **Philippo**, despite being predominantly of jumping bloodlines, with an index of 131.45 points was ranked 4th out of 53 stallions at his stallion testing, was shown successfully to level Z dressage.

Philippo, showed to the very top levels of dressage in Europe and goes back to the legendary Hanoverian stallion **Wendekreis**.
